

WE'RE HERE TO KEEP YOUR FAMILY TOGETHER

Here's how we can work with you on the costs of your pet's care

1

Talk to your vet about options for your pet's treatment

Your vet can discuss whether staging diagnostics or treatments over separate visits is medically suitable – and can help you think through what to prioritise within your budget. There's no judgement here; we want the best possible outcome for your pet.

2

Choose the payment option that fits your situation

We offer several ways to spread the cost of your pet's care. Your reception team can walk you through each one.

HCVH/G2Z financial assistance *(if you're not approved for the above)*

If your pet requires urgent veterinary care and you're unable to cover the full amount through any of the payment options above, please let us know – our team can assess whether HCVH financial assistance may be available for your situation.

How it works: Where assistance is approved, a deposit is required on admission, with the remaining balance repaid in manageable weekly or fortnightly instalments. Our team will talk you through payment minimums and eligibility criteria, to find the best arrangement for you.

A note from us

HCVH is a charity, funded by people like you in our community. When you repay your fees, those funds go straight back into helping the next pet owner who needs support. That way, your repayment doesn't just look after your own pet – you're playing a part in keeping our whole community of animals and their people together. Thank you.

HCVH does not provide financial advice or recommend any particular finance product. Clients should review the terms and conditions of each provider and determine whether the product is appropriate for their circumstances". HCVH does not receive any commission or financial benefit from the payment providers listed on this flyer.
